

NORTH MUNSTER BRANCH IRISH DENTAL ASSOCIATION

**Tuesday 28th March 2017,
Strand Hotel, Limerick
Meeting 8.00pm sharp**

*Practical clinical demonstration of clinical techniques in prosthodontics,
periodontics and endodontics*

Table 1 - Dr Padraig McAuliffe - Prosthodontist

Predictable Prosthodontics

Tips and techniques for avoiding remakes and adjustments

Dr McAuliffe will demonstrate practical methods that make it easier for the dental laboratory to provide high quality restorations. This will focus on tooth preparation techniques, impression making and bite records.

Table 2- Dr Emily Clarke - Periodontist

Tips for Cavitron Tips

Efficient and effective Cavitron Usage.

Dr Clarke will demonstrate how to effectively use your Cavitron in an efficient way for scaling and root planning. Attendees will leave with a greater understanding of the equipment and how best to use it

Table 3- Dr Conor Durack – Endodontist

All washed out

Tips and adjunctive techniques for optimum root canal irrigation

Dr Durack will demonstrate useful adjunctive irrigation techniques to optimally remove nerve tissue and debris from root canals.
