Building and growing success in your dental practice

Are you ready to build and grow a successful dental practice? At a time of rapid change, the challenge of building and growing a successful dental practice can seem very daunting. Technological change, new legal requirements and changing patient behaviours mean the present and the future for Irish dentistry look very different to what has gone before.

This essential practice management seminar organised by the Irish Dental Association features expert speakers who offer advice on moving to online

claims and payment systems for the PRSI and medical card schemes, coping with changing patient behaviours, and ensuring compliance with new consent and data protection laws.

Our keynote speaker is Prof. Ian Robertson, who will offer advice on what makes a winner. Why do some succeed both in life and in business, and others fail? And why do a few individuals end up supremely powerful, while many remain powerless?

Admission is exclusive to IDA members only and is guaranteed to help you build and grow a successful practice. Practice managers of attending dentists are welcome to attend too.
