

## Welcome

This year's ASM comprises two separate events. In the morning we are running two parallel hands-on courses. One course is on periodontal instrumentation with Dr Richard Lee Kin, and the other is on current bonding and composite restoration techniques with Dr Kevin Gilmore.

In the afternoon we will run a lecture series on medical topics relevant to dental practice. You can attend just the lectures or also add in a hands-on course! In the evening we will hold a dinner along with the retired dentists. I look forward to seeing you all there.

*Naomi Rahman*

## Registration

All delegates must register online for the hands on courses, seminar and/or dinner. To register, please log on to [www.dentist.ie](http://www.dentist.ie) and select "Book CPD Event" from the menu bar. If you require further assistance please call IDA House on 01-295 0072.

### HANDS-ON COURSES

IDA members €250 (lunch included) plus €95 for afternoon seminar  
Non-members €500 (lunch included) plus €190 for afternoon seminar

### AFTERNOON SEMINAR (EARLY BIRD booked before February 2, 2018)

IDA members EARLY BIRD €95 | €120 (lunch included)  
Non-members EARLY BIRD €190 | €240 (lunch included)  
Dinner €65 (must be pre-booked)

**CANCELLATIONS:** All cancellations must be received in writing either by email or by post to IDA House, Unit 2 Leopardstown Office Park, Sandyford, Dublin 18. Cancellations received 29 days or more prior to the course/event will be entitled to a 100% refund. Cancellations received between 15 days and 28 days (inclusive) prior to the course/event will receive a 75% refund. For cancellations received between one day and 14 days (inclusive) prior to the course/event, no refund will be given. Failure to attend the course/event on the day will constitute late cancellation and no refund will be given. Substitutions are welcome at any time.

points

## Morning hands-on programme

HANDS-ON  
5 CPD  
points

### Periodontal instrumentation

**Dr Richard Lee Kin**

MAX 10 PEOPLE

Richard is a periodontist and owner of the Mint Clinic on Leeson St. His practice is limited to periodontology and dental implantology, with a particular interest in microvascular surgery. This course will cover practical and evidence-based guidelines on the efficient and effective use of ultrasonic devices for scaling, root debridement and biofilm removal.

#### Course objectives:

- ▶ to have an understanding of ultrasonic technology and how to optimise the function of the equipment; and,
- ▶ to understand how to select ultrasonic inserts depending on the type of deposits and the tooth surface involved to achieve the best clinical outcome.

### Update on the use of current bonding and composite restorations from root to crown: current techniques and materials

**Dr Kevin Gilmore**

MAX 12 PEOPLE

Kevin specialises in prosthodontics and restorative dentistry. For the past 10 years, a major part of his work has involved leading the planning and treatment for challenging cases requiring multiple disciplines of dentistry. This course on current techniques and materials will cover restoration of the endodontically treated tooth, and techniques required to provide correct emergence profile and contact points in class II restorations.

#### Attendees will understand:

- ▶ the material science behind today's bonding and composite materials;
- ▶ how to establish proper contact points and emergence profile easily, quickly and predictably; and,
- ▶ restoration of the endodontically treated tooth.

## Afternoon lecture programme

SEMINAR  
6 CPD  
points

### Endocarditis: a shared concern

**Mr John Hinchion**

John is a consultant cardiothoracic surgeon and clinical senior lecturer who practises at Cork University Hospital and the Mater Private in Cork. He is a member of the RCSI Court of Examiners and a board member of its postgraduate training committee. He is also an examiner and Board member of the Intercollegiate Specialty Board in Cardiothoracic Surgery of Great Britain & Ireland.

### HIV and needlestick injury updates

**Dr Eoin Feeney**

A graduate of TCD School of Medicine, Eoin completed his higher specialist training in infectious diseases in 2012. In the same year he was awarded his PhD from UCD. He finished a clinical research fellowship at Massachusetts General Hospital and Brigham and Women's Hospital in Boston, where he was an instructor at Harvard Medical School. He returned to Ireland in 2014 to establish the Department of Infectious Diseases at St Vincent's University Hospital.

### Clinical Pathological Conference

**Dr Esther O'Regan**  
**Mr Michael Freedman**

Esther is a consultant pathologist with a special interest in head and neck and oromaxillofacial pathology. She currently holds a consultant post in St James's Hospital, Dublin, and the Dublin Dental University Hospital. Michael is a specialist oral surgeon based at the Blackrock Clinic. He graduated from Trinity College Dublin in 2006. He has lectured and published at a national and international level.

PROGRAMME KINDLY SPONSORED BY:

### Medical emergencies in dentistry – an update

**Professor Leo Stassen**

Leo is Professor of Oral and Maxillofacial Surgery in Trinity College Dublin, based in St James's Hospital and the Dublin Dental University Hospital. He has been Programme Director, Oral and Maxillofacial Surgery there, since 2004, and Oral Surgery since 2005. He was editor of the *British Journal of Oral and Maxillofacial Surgery* from 1996 to 1997, and has been the editor of the *Journal of the Irish Dental Association* since 2005.

### Trigeminal neuralgia – a pain specialist perspective

**Dr Hari Gopal**

Hari is a consultant in anaesthesia and pain medicine at the Mater Misericordiae University Hospital Dublin. His current work involves the development of multidisciplinary pain management services and interventional therapies, including neuromodulation of the dorsal root ganglion. He is a member of the World Institute of Pain and a Fellow of Interventional Pain Practice (FIPP) and of the Faculty of Pain Medicine, College of Anaesthetists of Ireland (FPMCAI).

### Radiographic diagnosis of maxillofacial lesions

**Dr Suk Ng**

Suk is a consultant in dental and maxillofacial radiology at Guy's Hospital and King's College Hospital in London. She qualified at Manchester Dental School in 1987, and carried out her specialist training in dental radiology at Guy's. For over two decades, Suk has taught dental radiology at under- and postgraduate level at a number of dental schools. She has just launched the PostGraduate Certificate in Dental CBCT Radiological Interpretation at King's College. Suk is the current President of the British Society of Dental and Maxillofacial Radiology.
